HOROSCOPES

Week of 12 August 2026

(21 March- 20 April) If you have difficulty saying something important to someone close to you, find a way to show them. Perhaps through expressive dance or a chainsaw sculpture.

(21 April-21 May) Sometimes finding peace can be incredibly difficult, even in the home. Luckily there's always diazepam to fall back on...or breathing exercises. You should try those first.

(22 May- 21 June) Someone is trying to tell you something important. You haven't been picking up the signs. Specifically the lawn signs from the last election. Get on that man.

(22 June- 23 July) What seems important to you now may not be later. You may have to face the fact that your Labubu collection may not hold its value.

(24 July- 23 Aug) A little self reflection goes a long way. Particularly if you're trying to figure out if your hair looks stupid.

(24 Aug- 23 Sept) A new appreciation for life may come to those who learn to enjoy the simple things. Things like a sunny sky, a pretty cloud, the wind in the grass, or a cicada screeching in your ear.

(24 Sept- 23 Oct) Finding peace with others requires compromise. Always have a handful of convictions on hand that you won't miss just so you have something to betray in these instances.

(24 Oct- 22 Nov) Your career may have taken an unexpected turn recently. Who would have thought you'd end up as a circus clown? Just kidding. Unless you are, in which case, more power to you Bozo.

(23 Nov- 21 Dec) Finding peace can be frustrating and discouraging for the intellectually honest. If you're intellectually dishonest then you'll be the one doing the discouraging instead!

(22 Dec- 20 Jan) The only constant in this universe is change. Except for pennies. Those are gone now.

(21 Jan- 19 Feb) In every relationship there will be conflict but if you can work through it together then you'll be stronger for it, or possibly divorced. Either way, problem solved.

(20 Feb- 20 March) A health scare may have put you on edge recently. You should file a complaint about the Doctor that jump-scared you. He can't be doing that around patients with heart issues.
