"The United States were a 35-year-old man, I think he'd be in a mental institution. Violent tendencies - delusions of grandeur - medicate heavily."

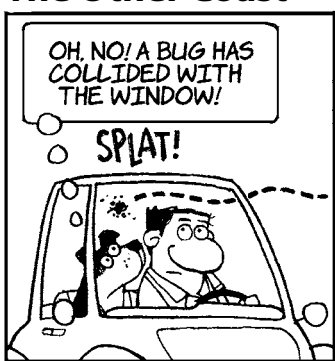

- Rick Mercer

HOROSCOPES

Week of 26 August 2026

(21 March- 20 April) You may contract a rare flesh eating bacteria from drinking untreated pond water. In order to avoid this fate, don't do that.

(24 Sept- 23 Oct) You may be struggling with how nonsensical the world has become lately, but if it's any consolation, same here.

(21 April-21 May) This week you may come up with a brilliant idea for a new flavour of potato chip but the world won't be ready for it and will shun you and your vision of a brighter future.

(24 Oct- 22 Nov) Your community values you. I mean who else are they going to sacrifice to the sun god for a bountiful harvest? Greg? Do your part.

(22 May- 21 June) The odds of a sinkhole opening under your home, swallowing it whole and depositing it in a strange lost ecosystem at the centre of the Earth is slim, but it's never zero.

(23 Nov- 21 Dec) There may be rumours of rising tensions at work lately, but despite the rumours the IT guys did not form a coup and behead the leaders of the marketing department. You can still stop it!

(22 June- 23 July) Someone is trying to tell you something important. It's me. You need to drink more water. HYDRATE!!!

(22 Dec- 20 Jan) Sometimes our thoughts betray us. Especially if you're thinking about Judas!

(24 July- 23 Aug) A change in allegiances may cause a rift between you and your friends, leading to a prolonged and bloody conflict that drives the world into chaos. Who's idea was it to play Risk anyways?

(21 Jan- 19 Feb) The sands of time are always shifting... Otherwise the hourglass isn't going to work properly.

(24 Aug- 23 Sept) You may find peace within...a sensory deprivation pod at my new wellness centre! Give me money.

(20 Feb- 20 March) A new bond may be forming between you and another. You should be more careful when you're using Gorilla Glue.
